

TECHNICAL DATA SHEET

DECAGRAF SOMBRAS

**SHADOW GRAFFITI REMOVER
DECAGRAF SOMBRAS**

DESCRIPTION

DECAGRAF SOMBRAS completely eliminates stains or residues of inks and paints that may persist after cleaning the graffiti. Formulated to eliminate halos and the spectra residual product after use graffiti removers.

APLICACION

Use roller brush on porous, non-porous supports, brick, plaster, natural stone, concrete, plaster, etc.. Wet previously above and below the surface to be cleaned. Apply DECAGRAF SOMBRAS on the surface to be treated, insisting with the help of a brush in a circular motion. Leave for two minutes on the halos and spectra, or between 10 and 30 minutes to stain and paint residues. Rinse thoroughly with water to make them as hot as possible. Repeat the entire operation several times until completely eliminate shadows or ghosts.

PRECAUTIONS

DECAGRAF SOMBRAS is recommended for treating the surfaces with low resistance to acids: plaster, stone or terracotta. Use with caution on painted surfaces. Attacks zinc, aluminum and their alloys. Clean immediately after application. Wear rubber gloves and goggles.

PERFORMANCE

PERFORMANCE: 3-6 m²/kg
