

PURGAT QUÍMICA, SL

FRUTYHORT

Detergent for agricultural use

TECHNICAL SHEET

CHARACTERISTICS

- Yellow-greenish liquid
- Odorless
- Totally soluble in water
- Biodegradable

SPECIFICATIONS

- pH: 10,5 + - 0,5 Density: 1,060+ - 0,02 Ir: 12,5 + - 1

PROPERTIES

- Nonionic surfactants
- Sequestrant of metallic ions
- Cationic surfactants
- Surface tension of the solution 2grs./L, 40 dinas/cm

APPLICATIONS

- Detergent for agricultural use to clean:
- Hoses, emitters and sprinklers of fungus and algae from the watering system
- Atomizers and recipients for phytosanitary treatments and herbicides
- For refrigerator water circuits installations
- For various fruits after taken out of the refrigerators
- PSILA: Disperse and clean the treacle without touching the fruit
- ENHANCER: in herbicide treatments
- TREATMENTS: copper "invernales" (stables) in fruit trees, as an humectant
- SUITABLE FOR THE FOOD INDUSTRY

DOSIFICATION

- The product can be used pure or diluted with water it can diluted up to 1 80% depending on the necessity/use

MODE OF USE

- Apply the product by spraying it, directly in the recipient

WARNING

- See safety sheet
