

PURGAT QUIMICA, SL

VER-QUIM
Detergent for industrial use

TECHNICAL SHEET

CHARACTERISTICS

- Yellow-greenish liquid
- Odorless
- Totally soluble in water
- Biodegradable

SPECIFICATIONS

- pH: 10,5 + - 0,5 Density: 1,060+ - 0,02 Ir: 12,5 + - 1

PROPERTIES

- Nonionic surfactants
- Sequestrant of metallic ions
- Cationic surfactants
- Surface tension of the solution 2grs./L, 40 dinas/cm
- SUITABLE PRODUCT FOR APPLICATIONS IN THE FOOD INDUSTRY AND IT COMPLIES WITH ALL NATIONAL AND EUROPEAN LEGISLATIONS IN PLACE AT THE MOMENT

APPLICATIONS

- Detergent for industrial use with high effectivity for the cleaning of many dirt caused by elements with an organic and vegetal base (greases, rubber, hydrocarbons, oils, etc.), due to its non-corrosiveness it can be applied in any surface (stainless steel, aluminum, plastics, lacquered surfaces, woods, etc.)
- Universal degreaser with high sequestering powers, dispersant, humectant, with sanitizing effects

DOSIFICATION

- The product can be used pure or diluted with water it can diluted up to 80% depending on the necessity

MODE OF USE

- Sprayed or immersed
- Apply the product on the surface to clean directly

WARNING

- See safety sheet
