

PURGAT QUÍMICA, SL

VER-QUIM-2

Detergent for industrial use

TECHNICAL SHEET

CHARACTERISTICS

- Yellow-greenish liquid
- Odorless
- Totally soluble in water
- Biodegradable

SPECIFICATIONS

- pH: 10,5 + - 0,5 Density: 1,060+ - 0,02 Ir: 12,5 + - 1

PROPERTIES

- Nonionic surfactants
- Sequestrant of metallic ions
- Cationic surfactants
- Surface tension of the solution 2grs./L, 40 dinas/cm

APPLICATIONS

- Industrial detergent for PORT, MARINE, NAUTIC installations and the entire PETROCHEMICAL INDUSTRY high effectivity for cleaning of all kind of dirt caused by elements with an oleaginous base hydrocarbons, greases, oils, etc. Due to its non-corrosiveness it can be applied in any surface (stainless steel, aluminium, lacquered surfaces, wood, fibers, gel coat, plastics, etc.)
- Universal degreaser with high sequestrant power, dispersant, humectant, with sanitizing effects.

DOSIFICATION

- The product can be used pure or diluted with water it can diluted up to 80% depending on the necessity/use

MODE OF USE

- Sprayed or immersed
- Apply the product on the surface to clean directly

WARNING

- See safety sheet
